\$2030: "A meme coin for FREEDOM"

**Tokyo, Japan** — Today, TWENTY-THIRTY.io announces the launch of its "meme coin for FREEDOM" (\$2030). The project shines a light on the concept of the NEW WORLD ORDER/Agenda 2030 via memes, original artwork/NFTs, and old-school street culture design.

## **Goal: Flip the misdeeds of the kabal into fun & investment and moon to USD 1B MC by/before 2030**

The goal of the project is to transform the doom & gloom of the NEW WORLD ORDER (NWO)/Agenda 2030 into something more positive and beneficial for society. This is done by "flipping the misdeeds of the NEW WORLD ORDER kabal into fun & investment". By or before year 2030, the project aims for market cap valuation at USD 1 billion. The development team sees the project as a long-term passion project that can act as a counter to the NWO agenda and those affected by it.

"It's \$2030. You'll own nothing." Nah, we'll own whatever we want. Hold \$2030 and be happy. (◡‿◡)
