About TWENTY-THIRTY.io (\$2030)

Launched in July 2024 from Tokyo, Japan, \$2030 is the world's first memetic, cryptographic hedge fund. It's the only crypto project in the world that commodifies the debts to society of the NEW WORLD ORDER kabal.

At the core is an AI-driven, on-chain decentralized sentiment index that quantifies societal debt and triggers token burns when thresholds for verifiable debts are breached, creating token scarcity. This creates a two-pronged perpetual motion narrative machine—built-in asymmetry.

With a time horizon extending to 2050, \$2030 is essentially a long-term "memetic externality arbitrage strategy"—systematically long the monotonic rise in these debts to society while embedding deflationary scarcity that turns societal decay into asymmetric alpha. The worse things get, the more \$2030 "proves" its thesis. It's 2nd-grade math: debt up = price up. It's DOOM into BOOM. It's karmic law via blockchain.
